Subject Index

(A) = Abstract

Abdomen
—, ultrasonography of blunt trauma of (A) 184
Abdominal viscera
—, direct spread of subperitoneal disease into 141, 148
Abscess
—, formation of from dropped gallstones 217
—, peritoneal and retroperitoneal, from spilled gallstones . . . 219
Achalasia
—, radionuclide and videofluoroscopy for detection of (A) . . . 182
Adrenal adenoma
—, CT attenuation value as discriminative index of 559
Adrenal cortical carcinoma
—, CT and MRI of fat in 272
Adrenal gland
—, involvement from renal cell carcinoma (A) 185
Adrenocortical adenoma
—, CT and MRI of fat component of 489
Agenesis
—, right hepatic lobe, associated with bile duct carcinoma . . . 456
Alagille's syndrome
—, hepatic architecture and function of 191
Anal fistulas
—, magnetic resonance imaging of (A) 89
Anal sphincter
—, anatomy of (A) 182
Aneurysm
—, aortocaval fistula secondary to atherosclerotic infrarenal aortic 466
—, of isolated common iliac artery 521
—, of pancreaticoduodenal artery with occlusion of celiac artery 470
—, spontaneous dissection of hepatic artery from 462
Angiography
—, noninvasive, in evaluation of pediatric renal masses (A) . . 91
—, of drug-related segmental colitis 529
—, of renal vein leiomyosarcoma 64
—, of small bowel volvulus 431
Angiomyolipoma
—, renal, computed tomography of (A) 576
Anorectal inflammation
—, anal wall thickness and (A) 496
Anorectal neoplasms
—, endoluminal ultrasonography for (A) 88
Aortocaval fistula
—, secondary to atherosclerotic infrarenal aortic aneurysm rupture 466
Appendicitis
—, in pregnancy, sonography of 149
—, nonpalpable rectus sheath hematoma clinically masquerading as 152
Arteriohepatic dysplasia
—, hepatic architecture and function of 191
Ascariasis
—, in biliary tract, computed tomography of 317
—, in gallbladder, ultrasonography of 320
—, intestinal, computed tomography of 315
Atmospheric air
—, as insufflating gas in double-contrast barium enema 436
Barium enema
—, double-contrast, combined with flexible sigmoidoscopy 238, 242
—, double-contrast, role of CO_2 and atmospheric air in 436
—, following colonoscopic biopsy, complications of 383
Barrett's esophagus
—, endoscopic ultrasonography of (A) 282
—, overview of 291
Behçet's disease
—, acute renal infarction caused by 264
Bile duct carcinoma
—, right hepatic lobe agenesis associated with 456
Bile duct obstruction
—, cause and preferential site of in gastric carcinoma 307
—, secondary to hepatocellular carcinoma 114, 118
Biliary stones
—, surgical clip migration and formation of (A) 575
Biliary tract
—, computed tomographic identification of ascariasis in 317
Bladder
—, verrucous carcinoma of 480
Blunt trauma
—, abdominal, small intestine rupture from (A) 495
—, abdominal and thoracic, ultrasonography of (A) 184
—, hepatic, intrahepatic biloma from subacute hematoma caused by 211
—, renal, radiographic assessment of (A) 576
—, ultrasonography of (A) 184
Boerhaave's syndrome
—, duodenal gallstone ileus producing 516
Bone scan
—, for staging prostatectomy (A) 499
Book reviews
—, alimentary tract radiology 392
—, computed tomography and magnetic resonance imaging of the whole body 501
—, Doppler ultrasound in obstetrics and gynecology 286
—, esophageal disorders 286
—, gastrointestinal and hepatic infections 578
—, gastrointestinal TNM cancer staging by endosonography . . 287
—, inflammatory bowel disease 502
—, inflammatory bowel disease: from bench to bedside 186
—, inherited liver disease 92
—, liver transplantation 92
—, minimally invasive therapy of the liver and biliary system 186
—, MRI of the female pelvis 93
—, nuclear medicine in gastroenterology 187
—, pitfalls and complications in the diagnosis and management of hepatobiliary and pancreatic diseases. Surgical, medical and radiological aspects 186
—, principles of genitourinary radiology 92
—, radiology of the kidney and urinary tract 392
—, radiology of the liver, biliary tract, and pancreas 578
—, radiology of the lower urinary tract 391
—, spiral CT: principles, techniques, and clinical applications 501
—, teaching atlas of urologic radiology 501
—, text and atlas of endoscopic retrograde cholangiopancreatography 578
—, transvaginal ultrasound 391
—, ultrasound in gastroenterology 286
Bowel obstruction
—, role of duplex-Doppler in localizing 33
Captopril renography
—, of renovascular hypertensive patients 395
Carbon dioxide
—, as insufflating gas in double-contrast barium enema 436
Cardiovascular dysphagia
—, endoscopic, radiographic, and manometric findings associated with (A) 387
Caroli's disease
—, magnetic resonance imaging findings in 361
Castleman disease
—, renal amyloidosis and 376
Cecal diverticulum
—, inverted, simulating pedunculated polyp 440
Cecum
—, disorders in fixation of ascending colon and 491

Celiac artery
—, pancreaticoduodenal artery aneurysms associated with occlusion of 470
Cell nuclearity
—, role in ultrasound-guided liver biopsies (A) 183
Cerebrum
—, glioblastoma of, associated with colonic polyposis 155
Cervical carcinoma
—, effects of external radiotherapy on uterine blood flow in (A) 499
—, intratumoral blood flow in, assessed by color Doppler US (A) 499
Chemotherapy
—, hepatic undifferentiated embryonal sarcoma treated with . . 133
—, intraperitoneal, implantation metastasis along catheter of . . 262
Children
—, angiography of complicated renal masses in (A) 91
—, focal xanthogranulomatous pyelonephritis simulating malignancy in 270
Cholangiocarcinoma
—, cystic peripheral, sonography and CT of 131
—, intrahepatic, magnetic resonance imaging of 126
—, peripheral, comparison of MRI with CT of 357
Cholangiography
—, intrahepatic, of non-primary sclerosing cholangitis livers (A) 498
—, intraoperative, laparoscopic sonography as alternative to (A) 184
—, intravenous, choledocholithiasis managed by (A) 575
—, of hepatic right lobe agenesis and bile duct carcinoma . . . 456
Cholangitis
—, primary sclerosing, ultrasonography of 109, 113
Cholecystitis
—, acute, managed by percutaneous cholecystomy (A) 575
Cholecystokinin
—, effect on postprandial gallbladder refilling (A) 389
Choledochocele
—, obstructing, endoscopic ultrasound of 72
Chronic ambulatory peritoneal dialysis
—, sclerosing peritonitis in 414
Chylous ascites
—, computed tomography and ultrasound appearance of . . . 138
—, of mesentery, CT and US diagnosis of 259
Cicatricial pemphigoid
—, in esophagus 97
Cirrhosis
—, hepatic and portal vein thrombosis in (A) 497
Cocaine
—, x-ray and ultrasound of ingested packages of 333, 339
Colitis
—, colonoscopic biopsies in 384
—, drug-related, angiography of 529
—, pseudomembranous, colonic localization of leukocytes in patients with (A) 387
—, ulcerative, diagnosis and differential diagnosis of (A) . . . 88
Colon
—, collection of rectal fluid simulating obstructive lesion of . . 531
—, constipation and transit time through (A) 496
Colon cancer
—, staging of using water enema computed tomography (A) . . 388
Colonic polyposis
—, associated with Turcot's syndrome 155
Colonoscopic biopsy
—, complications of barium enema following 383
—, in colitis 384
Color Doppler ultrasonography
—, acute renal obstruction evaluated by 58
—, intraoperative, in parenchymal sparing renal surgery (A) . . 285
—, intratumoral blood flow in cervical carcinoma assessed by (A) 499
—, of peripheral zone of prostate (A) 285
—, percutaneous biopsy of liver tumors with guidance of . . . 206
—, screening for ovarian cancer in postmenopausal women with (A) 576
—, uterine blood flow in cervical carcinoma assessed by (A) 499
Colorectal carcinoma
—, hydrocolonic sonographic diagnosis and staging of (A) . . . 496
—, imaging procedures for 242
—, screening for 381
Colovesical fistula
—, secondary to diverticular disease (A) 283
Computed tomographic arterial portography
—, in preoperative imaging of hepatic neoplasms (A) 496
—, paracardial lymphadenopathy with hepatic metastases found on 201
—, spiral, of hepatocellular carcinoma 541
Computed tomography (CT)
—, adrenal involvement from renal cell carcinoma assessed by (A) 185
—, blunt small bowel perforation diagnosed by (A) 282
—, diagnosis of small intestine rupture from blunt abdominal trauma by (A) 495
—, gastrointestinal hemorrhage localized by 31
—, hepatic amebic abscess with bronchohepatic fistula diagnosed by 214
—, liver volume assessment by 209
—, of adrenal masses 559
—, of adrenocortical adenoma containing fat component . . . 489
—, of aortocaval fistula 466
—, of arteriohepatic dysplasia 191
—, of bile duct carcinoma 456
—, of bile duct obstruction secondary to hepatocellular carcinoma 114
—, of blunt liver trauma (A) 183
—, of calcified splenic metastasis from gastric carcinoma . . . 312
—, of chylous ascites 138
—, of colovesical fistula secondary to diverticular disease (A) . . 283
—, of common iliac artery aneurysm into small bowel 521
—, of cystic lymphangioma of spleen 82
—, of cystic peripheral cholangiocarcinoma 131
—, of duct ectasia due to mucus-producing cancers 341
—, of duodenojejunal junction 425
—, of esophageal leiomyosarcoma 15
—, of fat in adrenal cortical carcinoma 272
—, of fibrous pseudotumor of tunica vaginalis testis 379
—, of hepatic cavernous hemangioma with calcifications . . . 459
—, of hepatic inflammatory pseudotumor (A) 389
—, of hepatic right lobe agenesis 456
—, of hepatic undifferentiated embryonal sarcoma 133
—, of inferior vena cava invasion by renal cell carcinoma (A) . . 285
—, of inverted cecal diverticulum 440
—, of liquid intratumoral fat layering in necrotic renal cell carcinoma 483
—, of liver, survey of techniques for 348
—, of lumbar herniation of spleen 446
—, of mediastinal extension of bilateral perirenal urinoma . . . 267
—, of mesenteric chylous cyst 259
—, of multilocular cystic renal cell carcinoma 164
—, of nonpalpable rectus sheath hematoma 152
—, of ovarian cancer 2
—, of perforated jejunal diverticulum 29
—, of peripheral cholangiocarcinoma 357
—, of peritoneal carcinomatosis 52, 56
—, of portal venous system wall calcifications 477
—, of renal amyloidosis with Castleman disease 376
—, of renal vein leiomyosarcoma 64
—, of sarcoidosis (A) 576
—, of sclerosing peritonitis 414
—, of small bowel obstruction 161
—, of small bowel volvulus 431
—, of splenic epidermoid cyst 449
—, of splenic implant in jejunum 518
—, of splenic vein occlusion 78
—, of tailgut cysts 256
—, of thrombophlebitic retroperitoneal collateral veins 474
—, pelvic, for staging prostatectomy (A) 499
—, percutaneous feeding gastrostomy guided by 302
—, pneumatosis intestinalis diagnosed by 523

—, small bowel obstruction managed with (A) 182
—, spiral, cystic artery pseudoaneurysm diagnosed by 75
—, spiral, hypervascularity in Crohn's disease demonstrated by 327
—, spiral, liver volume assessment by 209
—, spiral, of female pelvis 9
—, spiral, of hepatocellular carcinoma 541
—, spiral volumetric, of hypervascular hepatocellular carcinoma 547
—, water enema, staging of colon cancer with (A) 388
Constrast media
—, role in post-ERCP pancreatitis (A) 90
Cricopharyngeal bar
—, gastroesophageal reflux and 225
—, reflects dysfunction in pharyngoesophageal segment 179
Crohn's disease
—, diagnosis and differential diagnosis of (A) 88
—, liver abscess in (A) 89
—, pelvic and perineal complications of (A) 388
—, spiral CT demonstration of hypervascularity in 327
—, ultrasound compared with enteroclysis in examination of . . . 323
Cryotherapy
—, hepatic metastases from neuroendocrine tumors treated by (A) 574
Cystourethrography
—, voiding, extravasation of contrast material during 68
Cytology
—, of pure pancreatic juice, pancreatic neoplasia diagnosed by (A) 575
—, smear, compared with microhistology in hepatocellular carcinoma diagnosis (A) 90
Defecography
—, benefits of 280
—, digital subtraction in 245
—, interobserver agreement in (A) 283
—, pelvic floor hernias demonstrated by 442
—, role in clinical practice 279
Diabetes mellitus
—, emphysematous pyelonephritis and emphysematous cholecystitis in patient with 169
Direct spread
—, of subperitoneal disease into solid organs 141, 148
DNA ploidy
—, role in ultrasound-guided liver biopsies (A) 183
Doppler perfusion index
—, colorectal liver metastases diagnosed by (A) 283
Drug smugglers
—, x-ray and ultrasound of ingested cocaine-filled packages in 333, 339
Duct ectasia
—, mucus-producing cancers with intraductal extension cause . . . 341
Duodenal loop
—, idiopathic antral hypomotility and abnormal shape of (A) 387
Duodenojejunal junction
—, computed tomography of 425
Duodenum
—, obstruction of, by biliary calculus 516
—, rupture of pancreatic pseudocyst into 106
Duplex-Doppler ultrasonography
—, evaluation of intestinal peristalsis by 33
—, kidney dysfunction and hepatorenal failure in liver disease detected by (A) 185
—, of renovascular hypertensive patients 395
Emphysema
—, subcutaneous, secondary to perforated esophageal carcinoma 23
Emphysematous cholecystitis
—, with emphysematous pyelonephritis 169
Emphysematous pyelonephritis
—, with emphysematous cholecystitis 169
Endoscopic retrograde cholangiopancreatography (ERCP)
—, after laparoscopic cholecystectomy (A) 184
—, lacunary pooling in 86
—, role of contrast agent in pancreatitis after (A) 90
Endoscopic ultrasonographic-guided punctured pancreatic ductography (EPPD)
—, pancreatic intraductal papillary tumor diagnosed by 222
Endoscopic ultrasonography
—, malignant esophageal strictures staged by (A) 495
—, obstructing choledochocele diagnosed by 72
—, of Barrett's esophagus (A) 282
—, of gastric antral vascular ectasia (watermelon stomach) . . . 26
—, of lymph node metastasis (A) 89
—, of rapidly growing esophageal leiomyosarcoma 15
—, punctured pancreatic ductography using 222
Endoscopy
—, of rapidly growing esophageal leiomyosarcoma 15
Epidermoid cyst
—, splenic, CT, MRI, and ultrasonography of 449
Esophageal adenocarcinoma
—, overview of 291
Esophageal carcinoma
—, accuracy of endoscopic ultrasonographic staging of (A) . . . 495
—, patterns of lymphatic spread in (A) 88
—, simultaneous detection of gastric carcinoma and 299
—, subcutaneous emphysema of lower extremity secondary to . . . 23
Esophageal leiomyosarcoma
—, rapidly growing, characteristics of 15
Esophageal mass
—, intraluminal, metastatic thyroid carcinoma presenting as . . 20
Esophageal metastases
—, of breast carcinoma, dysphagia from (A) 574
Esophagus
—, cicatricial pemphigoid in 97
—, pharmacoradiologic disimpaction of foreign bodies in (A) . . . 574
Extravasation
—, of contrast material during voiding cystourethrography . . . 68
Falciform ligament hernia
—, small bowel obstruction caused by 161
Fat
—, within adrenal cortical carcinoma 272
Fine-needle aspiration cytology
—, pelvic lymph node metastases detected by (A) 390
Fine-needle biopsy
—, ultrasound-guided, of hepatocellular carcinoma (A) 90
Flexible sigmoidoscopy
—, combined with double-contrast barium enema 238, 242
Fundic gland polyps
—, gastric, without familial polyposis coli 101
Gallbladder
—, effect of cholecystokinin on postprandial refilling of (A) . . 389
—, intrahepatic abscess due to perforation of 452
—, postprandial refilling of (A) 575
—, sludge without stones in (A) 183
—, ultrasonography of ascariasis in 320
—, ultrasound-guided fine-needle puncture of (A) 498
Gallstones
—, Boerhaave's syndrome caused by duodenal obstruction by . . . 516
—, dropped, abscess formation as complication of 217
—, intravenous cholangiography screening of (A) 575
—, pathogenesis of 571
—, pigment vs. cholesterol (A) 498
—, spilled, peritoneal and retroperitoneal abscesses caused by . . . 219
Gartner cyst
—, magnetic resonance imaging findings of 566
Gastrectomy
—, CT-guided percutaneous feeding gastrostomy in patients with 302
Gastric antral vascular ectasia (GAVE)
—, endoscopic ultrasound appearance of 26
Gastric carcinoma
—, calcified splenic metastasis from 312
—, obstructive jaundice in 307

—, simultaneous detection of esophageal carcinoma and . . . 299
Gastroenteritis
—, eosinophilic, radiographic manifestations of 406
Gastroesophageal reflux disease
—, premature contraction of cricopharyngeus as sign of 225
Gastrointestinal bleeding
—, localized by computed tomography 31
—, screening for 381
Gastrointestinal tract
—, bezoars in (A) 88
—, hypotonic effect of glucagon in CT and MRI of 44
—, lower, diagnosis and management of hemorrhage in (A) . . 388
Gastrostomy
—, radiologic-assisted, when percutaneous endoscopic is contraindicated (A) 282
Glucagon
—, hypotonic effect in gastrointestinal radiology 44
Hemangioma
—, hepatic cavernous, with multiple calcifications 459
Hematuria
—, microscopic, radiographic assessment of (A) 576
—, renal ultrasonography and excretory urogram of (A) 576
Hemiscrotum
—, fibrous pseudotumor in 379
Hepatic arteriography
—, of small hepatocellular carcinomas 534
Hepatic artery
—, spontaneous dissection of 462
Hepatic vein
—, cirrhosis and thrombosis of (A) 497
Hepatocellular carcinoma
—, bile duct involvement in 118
—, computed tomographic arterial portography of 541
—, dynamic MRI vs arteriograms of 534
—, fibrolamellar, dynamic contrast-enhanced MRI of 122
—, hypervascular, spiral volumetric computed tomography of . . . 547
—, intrahepatic bile duct dilatation secondary to 114
—, role of DNA ploidy and cell nuclearity in diagnosis of (A) . . . 183
—, ultrasound-guided fine-needle biopsy of (A) 90
—, ultrasound-guided percutaneous microwave coagulation therapy for (A) 90
—, vascular invasion by 277
Hernia
—, of small bowel through falciform ligament 161
Human immunodeficiency virus
—, pelvocalyceal thickening in nephropathy associated with . . 371
Hydatid cysts
—, percutaneous treatment of under sonographic guidance (A) . . . 89
—, renal, percutaneous drainage of (A) 498
Hydrocolonic sonography
—, diagnosis and differential diagnosis of ulcerative colitis and Crohn's disease by (A) 88
Hydrocolonic sonography
—, of colorectal carcinoma (A) 496
Hydronephrosis
—, associated with ureteral lymphoma 173
Hypervascularity
—, in Crohn's disease, spiral CT demonstration of 327
Idiopathic antral hypomotility
—, abnormal duodenal loop shape associated with (A) 387
Implantation metastasis
—, alongside intraperitoneal chemotherapy catheter in ovarian carcinoma 262
Inferior vena cava
—, renal cell carcinoma invasion of (A) 285
Inflammatory bowel disease
—, ^{99m}Tc HMPAO single-photon emission computerized tomography of (A) 387
Interureteric ridge edema
—, acute lower ureteric obstruction due to calculi associated with 368
Intestinal peristalsis
—, Duplex-Doppler evaluation of 33
Intrahepatic pigmented calculi
—, in Caroli's disease, MRI findings in 361
Intrahepatic portosystemic shunts
—, in patients with liver cirrhosis (A) 183
Intravenous urography
—, of interureteric ridge edema 368
Ischemic colitis
—, role of blood supply in 85
Jejunal diverticulum
—, perforated, computed tomography of 29
Jejunum
—, splenic implant in 518
Kidney
—, acute infarction of caused by Behçet's disease 264
—, direct spread of subperitoneal disease into 141, 148
—, hyperechoic, pelvocalyceal thickening in 371
—, xanthogranulomatous pyelonephritis simulating tumor in . . 270
Kidney dysfunction
—, in liver disease, duplex Doppler US as noninvasive predictor of (A) 185
Kidney neoplasms
—, acquired 569
—, computed tomography of (A) 576
—, liquid intratumoral fat layering in 483
Laparoscopic cholecystectomy
—, abscess formation from dropped gallstones from 217
—, cystic artery pseudoaneurysm as complication of 75
—, peritoneal and retroperitoneal abscesses caused by spilled gallstones from 219
—, role of endocsopic retrograde cholangiopancreatography after (A) 184
Laparoscopic sonography
—, as alternative to intraoperative cholangiography (A) 184
—, of liver tumors (A) 284
Laparoscopy
—, carcinoma of pancreatic head and periampullary region staged by (A) 389
Leiomyosarcoma
—, rapidly growing esophageal, characteristics of 15
—, renal vein, venous invasion in 64
Ligament of Treitz
—, characteristics of 421
Liver
—, agenesis of right lobe associated with bile duct carcinoma . . . 456
—, cavernous hemangioma with multiple calcifications in . . . 459
—, computed tomography assessment of volume of 209
—, direct spread of subperitoneal disease into 141, 148
—, dynamic contrast-enhanced MR imaging of (A) 283
—, encephalopathy after transjugular intrahepatic portosystemic shunts (A) 497
—, inflammatory pseudotumor of (A) 389
—, intrahepatic portosystemic shunts in patients with cirrhosis of (A) 183
—, non-primary sclerosing cholangitis, intrahepatic cholangiographic appearance of (A) 498
—, percutaneous feeding gastrostomy for gastric remnant via . . . 302
—, periportal tracking on CT scan of blunt trauma of (A) . . . 183
—, survey of CT techniques for imaging of 348
Liver abscess
—, amebic, with bronchohepatic fistula 214
—, from gallbladder perforation 452
—, in Crohn's disease (A) 89
Liver disease
—, end-stage, role of transjugular intrahepatic portosystemic shunts in management of (A) 284
—, kidney dysfunction and hepatorenal failure in (A) 185
—, portal blood flow in presence and absence of 197

Liver injury
—, intrahepatic biloma caused by . . . 211
Liver metastases
—, colorectal, Doppler perfusion index vs. intraoperative US in diagnosing (A) . . . 283
Liver neoplasms
—, cavernous hemangioma with multiple calcifications . . . 459
—, comparison of MRI with CT of . . . 357
—, CT portography in preoperative staging of (A) . . . 496
—, from neuroendocrine tumors (A) . . . 574
—, laparoscopy and laparoscopic ultrasound of (A) . . . 284
—, paracardial adenopathy associated with . . . 201
—, undifferentiated embryonal sarcoma of . . . 133
Liver transplantation
—, MRI assessment of hepatic hemodynamics of candidates for (A) 497
Lumbar hernia
—, splenic, computed tomography of . . . 446
Lymph node metastasis
—, endosonographic features predictive of (A) . . . 89
Lymphadenopathy
—, thrombophlebitic retroperitoneal collateral veins mimicking 474
Lymphangioma
—, cystic, of spleen . . . 82
Magnetic resonance angiography
—, of proximal renal artery stenosis . . . 395
—, renal artery stenosis evaluated by (A) . . . 185
Magnetic resonance cholangiography
—, of obstructive jaundice, correlated with ERCP and PTC . . 353
Magnetic resonance imaging (MRI)
—, Caroli's disease and intrahepatic pigmented calculi reported by 361
—, dynamic contrast-enhanced, of fibrolamellar hepatocellular carcinoma . . . 122
—, dynamic contrast-enhanced, of liver (A) . . . 283
—, hepatic amebic abscess with bronchohepatic fistula diagnosed by 214
—, hypervascular hepatocellular carcinoma detected by . . . 547
—, intrahepatic biloma from subacute hematoma diagnosed by . . 211
—, of adrenocortical adenoma containing fat component . . . 489
—, of anal fistulas (A) . . . 89
—, of anal sphincter (A) . . . 182
—, of arteriohepatic dysplasia . . . 191
—, of ascariasis . . . 315, 317
—, of calcified splenic metastasis from gastric carcinoma . . . 312
—, of cystic lymphangioma of spleen . . . 82
—, of fat in adrenal cortical carcinoma . . . 272
—, of fibrous pseudotumor of tunica vaginalis testis . . . 379
—, of giant Gartner cyst . . . 566
—, of gravid uterine dehiscence . . . 486
—, of hepatic inflammatory pseudotumor (A) . . . 389
—, of hepatocellular carcinoma with bile duct involvement . . . 118
—, of intrahepatic cholangiocarcinoma . . . 126
—, of multilocular cystic renal cell carcinoma . . . 164
—, of ovarian cancer . . . 2
—, of pelvic neurofibromatosis . . . 176
—, of peripheral cholangiocarcinoma . . . 357
—, of posterior urethral diverticulum . . . 70
—, of rectal carcinoma (A) . . . 89
—, of small bowel volvulus . . . 431
—, of small hepatocellular carcinomas . . . 534
—, of splenic epidermoid cyst . . . 449
—, of tailgut cysts . . . 256
—, of thrombophlebitic retroperitoneal collateral veins . . . 474
—, of ureteral lymphoma . . . 173
—, of vocal cord closure during deglutition (A) . . . 574
—, pelvic and perineal complications of Crohn's disease assessed by (A) 388
—, perianal inflammatory disease evaluated by . . . 248
—, phase contrast, evaluation of pediatric renal masses with (A) 91
—, phase contrast, portal blood flow measured by . . . 197
—, preoperative staging of rectal cancer by (A) . . . 283
—, role in preoperative assessment of liver transplantation patients (A) . . . 497
Manometry
—, of cardiovascular dysphagia (A) . . . 387
—, solid-state computerized, as adjunct to videoradiography for pharyngeal dysphagia . . . 230
Meckel's diverticulum
—, inverted, simulating pedunculated small bowel polyp . . . 236
Mesentery
—, chylous cyst of . . . 259
Microhistology
—, compared with smear cytology in hepatocellular carcinoma diagnosis (A) . . . 90
Mucus-producing cancers
—, with intraductal extension, duct ectasia due to . . . 341
Multilocular cystic renal cell carcinoma
—, of smaller size, radiologic evaluation of . . . 164
Nephropathy
—, HIV-associated, pelvocalyceal thickening in . . . 371
Neuroendocrine neoplasms
—, cryotherapy of hepatic metastases from (A) . . . 574
Neurofibromatosis
—, pelvic, magnetic resonance imaging of . . . 176
Niemann–Pick disease type C
—, nodular splenomegaly as symptom of . . . 157
Obstructive jaundice
—, in gastric carcinoma . . . 307
—, magnetic resonance cholangiography of . . . 353
Omentum neoplasms
—, ultrasonography of . . . 47, 56
Ovarian cancer
—, color Doppler ultrasonography screening for (A) . . . 576
Ovarian cancer
—, computed tomography and magnetic resonance imaging of . . 2
—, implantation metastasis along intraperitoneal chemotherapy catheter . . . 262
Pancreas
—, EPPD of intraductal papillary tumor in . . . 222
—, intraductal ultrasound of (A) . . . 284
—, papillary cystic neoplasms of . . . 554
—, peridudenal panniculitis due to rupture of pseudocyst in . . . 106
Pancreas–kidney transplantation
—, enzymatic digestion of urethra after . . . 563
Pancreatic duct
—, differential diagnosis between benign and malignant localized stenosis of (A) . . . 284
Pancreatic head carcinoma
—, laparoscopic and laparoscopic ultrasonographic staging of (A) 389
Pancreatic neoplasms
—, endoscopic retrograde pancreatography with aspiration cytology for (A) . . . 575
—, mucin-producing, cytologic examination of pancreatic juice for differential diagnosis of (A) . . . 91
—, radiologic findings of . . . 554
Pancreaticoduodenal artery
—, celiac artery occlusion associated with aneurysm of . . . 470
Panniculitis
—, peridudenal, due to spontaneous rupture of pancreatic pseudocyst . . . 106
Papillary cysts
—, of pancreas . . . 554
Paracardial lymphadenopathy
—, associated with hepatic metastases . . . 201
Paralytic ileus
—, duplex-Doppler diagnosis of . . . 33
Paratesticular tumor
—, CT and MRI of . . . 379
Pelvic floor hernia

—, evacuation proctography with positive contrast peritoneography of . . . 442
Pelvic lymph node metastases
—, detected by cross-sectional imaging and fine needle aspiration cytology (A) . . . 390
Pelvic lymphadenectomy
—, for staging prostatectomy (A) . . . 499
Pelvic neurofibromatosis
—, magnetic resonance imaging of . . . 176
Pelvis
—, spiral computed tomography of . . . 9
Percutaneous cholecystomy
—, acute cholecystitis managed by (A) . . . 575
Percutaneous feeding gastrostomy
—, via liver in patients with partial gastrectomy . . . 302
Percutaneous liver biopsy
—, in England and Wales, audit of (A) . . . 388
Percutaneous microwave coagulation therapy
—, for small hepatocellular carcinoma (A) . . . 90
Periampullary carcinoma
—, laparoscopic and laparoscopic ultrasonographic staging of (A) 389
Perianal inflammation disease
—, magnetic resonance imaging of . . . 248
Peritoneography
—, with evacuation proctography to demonstrate pelvic floor hernia 442
Peritoneum neoplasms
—, computed tomography of . . . 52, 56
—, ultrasonography of . . . 47, 56
Peritonitis
—, sclerosing, diagnostic, clinical, and radiologic features of (A) 284
Pharmacology
—, role in disimpaction of esophageal foreign bodies (A) . . . 574
Pharyneal dysphagia
—, solid-state computerized manometry with videoradiography of 230
Pneumatosis intestinalis
—, differential diagnosis and therapeutic consequences of . . . 523
Pneumoperitoneum
—, diagnosis of minimal to moderate . . . 492
—, in peritoneal dialysis patients (A) . . . 389
—, induced, in CT of peritoneal carcinomatosis . . . 52, 56
Polycystic kidney disease
—, bilateral chronic perirenal fluid collection in . . . 267
Portal vein
—, calcifications of system wall of . . . 477
—, cirrhosis and thrombosis of (A) . . . 497
—, percutaneous biopsy of . . . 206
—, phase contrast MRI of blood flow in . . . 197
Pregnancy
—, sonography of acute appendicitis in . . . 149
Proctography
—, with positive contrast peritoneography to demonstrate pelvic floor hernia . . . 442
Prostate
—, diagnostic value of color Doppler flow in peripheral zone of (A) 285
—, pelvic neurofibromatosis involved in . . . 176
—, posterior urethral diverticulum presenting as midline cyst in 70
Prostate cancer
—, detection of pelvic lymph node metastases before (A) . . . 390
—, imaging of . . . 505
—, pelvic CT, bone scan, and lymphadenectomy for staging of (A) 499
—, ultrasound-guided transition zone biopsies in detection of (A) 390
Prostatectomy
—, correlation of transrectal US and systematic biopsy with pathological results of (A) . . . 499
—, pelvic CT, bone scan, and pelvic lymphadenectomy staging for (A) . . . 499
Prostatitis
—, transrectal prostatic sonography as diagnostic tool for (A) 91
Prostatodynia
—, transrectal prostatic sonography as diagnostic tool for (A) 91
Pseudoaneurysm
—, as complication of laparoscopic cholecystectomy . . . 75
Psoas muscle
—, emphysema from esophageal carcinoma spread along . . . 23
Pulsed Doppler
—, acute renal obstruction evaluated by . . . 58
Radiology
—, plain abdominal, small bowel obstruction managed by (A) . . . 182
Radionuclide bolus transport
—, achalasia detected by (A) . . . 182
Rectal cancer
—, endoluminal US vs. MRI preoperative staging of (A) . . . 283
—, magnetic resonance imaging of (A) . . . 89
Rectal emptying
—, constipation and (A) . . . 496
Rectum
—, colonic pseudo-obstruction and fluid in . . . 531
Rectus sheath hematoma
—, clinically presenting as appendicitis . . . 152
Renal amyloidosis
—, Castleman disease and . . . 376
Renal artery stenosis
—, magnetic resonance angiography of (A) . . . 185
—, magnetic resonance imaging of . . . 395
Renal cell carcinoma
—, adrenal involvement from (A) . . . 185
—, in hemodialysis patients, ultrasonography of (A) . . . 185
—, invasion of inferior vena cava by (A) . . . 285
—, liquid intratumoral fat layering in . . . 483
—, partial nephrectomy in (A) . . . 390
—, small multilocular cystic, presenting as solid mass . . . 164
Renal hypertrophy
—, overview of . . . 181
Renal masses
—, computed tomography of (A) . . . 576
—, noninvasive angiography in evaluation of (A) . . . 91
Renal obstruction
—, techniques in evaluation of . . . 58
Renal parenchyma
—, color Doppler intraoperative ultrasound in sparing surgery on (A) 285
Renal parenchymal disease
—, ultrasound versus histology of (A) . . . 285
Renal vein leiomyosarcoma
—, venous invasion in . . . 64
Renovascular hypertension
—, diagnostic imaging evaluation of . . . 395
Sarcoidosis
—, abdominal computed tomography findings of (A) . . . 576
Scintigraphy
—, of postprandial gallbladder refilling (A) . . . 575
—, pseudomembranous colitis detected by (A) . . . 387
Sclerosing peritonitis
—, imaging diagnosis and extent of . . . 414
Scrotum
—, ultrasonography of (A) . . . 577
Sigmoid diverticulitis
—, transvaginal sonographic diagnosis of . . . 253
Small bowel
—, computed tomography in diagnosis of blunt perforation of (A) 282
—, eosinophilic gastroenteritis in . . . 406
—, inverted Meckel's diverticulum simulating polyp in . . . 236
—, isolated common iliac artery aneurysm rupturing into . . . 521
—, scintigraphic evaluation of transit time in (A) . . . 495
—, sonographic appearance of carcinoid tumor in . . . 37
Small bowel disease
—, ultrasound compared with enteroclysis in examination of . . . 323

Small bowel obstruction
—, due to hernia through falciform ligament 161
—, radiologic management of (A) 182
Small bowel volvulus
—, barium studies, angiography, CT, and MRI of 431
Small intestine
—, blunt abdominal trauma associated with rupture of (A) . . . 495
Spiral scanning
—, of female pelvis 9
Spleen
—, cystic lymphangioma of 82
—, direct spread of subperitoneal disease into 141, 148
—, epidermoid cysts in 449
—, lumbar herniation of 446
Spleen neoplasms
—, from gastric carcinoma 312
Splenic vein occlusion
—, computed tomography diagnosis of 78
Splenomegaly
—, nodular, as symptom of Niemann–Pick disease type C . . . 157
Splenosis
—, in jejunum 518
Steroids
—, effect on eosinophilic gastroenteritis 406
Stomach
—, eosinophilic gastroenteritis in 406
—, fundic gland polyposis in 101
Subperitoneal disease
—, direct spread of into solid organs 141, 148
Surgical clips
—, biliary stone formation due to migration of (A) 575
Tailgut cysts
—, computed tomography and magnetic resonance imaging of 256
^{99m}Tc HMPAO single-photon emission computerized tomography
—, of inflammatory bowel disease (A) 387
Thoracic trauma
—, blunt, ultrasonography of (A) 184
Thyroid carcinoma
—, metastatic, presenting as intraluminal esophageal mass . . . 20
Transition zone
—, prostate cancer detected by biopsies in (A) 390
Transitional cell carcinoma
—, of upper urinary tract, staging by MRI of 365
Transjugular intrahepatic portosystemic shunt
—, hepatic encephalopathy after (A) 497
—, high APACHE II scores and survival after (A) 497
—, role in management of end-stage liver disease (A) 284
Transjugular intrahepatic portosystemic stent shunt
—, as salvage treatment for uncontrolled variceal bleeding (A) 183
Transrectal prostatic sonography
—, differential diagnosis of prostatitis and prostatodynia using (A) 91
Transvaginal sonography
—, sigmoid diverticulitis diagnosed by 253
Tunica vaginalis testis
—, fibrous pseudotumor of 379
Turcot's syndrome
—, colonic polyposis associated with 155
Ulcerative colitis
—, chronic, characteristic morphologic changes in 275
—, diagnosis and differential diagnosis of (A) 88
Ultrasonography
—, acute renal obstruction evaluated by 58
—, blunt abdominal and thoracic trauma managed by (A) . . . 184
—, blunt trauma assessed by (A) 184
—, color Doppler, *see* Color Doppler ultrasonography
—, colorectal liver metastases diagnosed by (A) 283
—, duplex Doppler, *see* Duplex Doppler ultrasonography
—, endoluminal, anal wall thickness determined by (A) 496
—, endoluminal, for anorectal disorders (A) 88
—, endoluminal, preoperative staging of rectal cancer by (A) . . . 283
—, endoscopic, *see* Endoscopic ultrasonography
—, evaluation of urethral stricture disease by (A) 91
—, hepatic amebic abscess with bronchohepatic fistula diagnosed by 214
—, hypervascular hepatocellular carcinoma detected by 547
—, intraductal, differentiation between pancreatic cancer and chronic pancreatitis by (A) 284
—, laparoscopic, of carcinoma of pancreatic head and periampullary region (A) 389
—, laparoscopic, of liver tumors (A) 284
—, of acute appendicitis in pregnancy 149
—, of anal sphincter (A) 182
—, of body packers smuggling cocaine-filled packages . . 333, 339
—, of chylous ascites 138
—, of cystic peripheral cholangioccarcinoma 131
—, of duct ectasia due to mucus-producing cancers 341
—, of gallbladder ascariasis 320
—, of hepatic inflammatory pseudotumor (A) 389
—, of intratesticular lesions (A) 577
—, of mesenteric chylous cyst 259
—, of multilocular cystic renal cell carcinoma 164
—, of nonpalpable rectus sheath hematoma 152
—, of postprandial gallbladder refilling (A) 575
—, of posterior urethral diverticulum 70
—, of primary sclerosing cholangitis 109, 113
—, of primary small bowel carcinoid tumor 37
—, of renal amyloidosis with Castleman disease 376
—, of renal cell carcinoma in hemodialysis patients (A) 185
—, of renal parenchymal disease (A) 285
—, of renal vein leiomyosarcoma 64
—, of sclerosing peritonitis 414
—, of splenic epidermoid cyst 449
—, peritoneal carcinomatosis detected by 47, 56
—, renal, microsopic hematuria evaluated by (A) 576
—, small bowel disease examined by 323
—, transrectal, correlated with pathology of prostatectomy specimens (A) 499
Ultrasound-guided fine-needle aspiration
—, of gallbladder (A) 498
Ultrasound-guided percutaneous biopsy
—, of liver tumors 201
Upper gastrointestinal barium studies
—, in esophageal cicatricial pemphigoid 97
Ureteral calculi
—, interureteric ridge edema caused by 368
Ureteral lymphoma
—, magnetic resonance imaging of 173
Urethral diverticulum
—, presenting as midline prostatic cyst 70
Urethral stricture disease
—, ultrasound in evaluation of (A) 91
Urethritis
—, complication after pancreas–kidney transplantation 563
Urinary tract
—, MRI staging of transitional cell carcinoma of 365
Urinoma
—, bilateral perirenal, in polycystic kidney disease 267
Urography
—, intravenous, acute renal obstruction evaluated by 58
—, intravenous, diagnostic yield of (A) 91
Uterus
—, gravid rupture of 486
Variceal bleeding
—, transjugular intrahepatic portosystemic stent shunt as salvage treatment for 183
Vena cava
—, thrombophlebitis of, mimicking lymphadenopathy 474

Verrucous carcinoma
—, of bladder 480
Videofluoroscopy
—, achalasia detected by (A) 182
Videoradiography
—, of pharyngeal dysphagia with solid-state computerized manometry 230
Vocal cord closure
—, magnetic resonance imaging of (A) 574
Watermelon stomach
—, endoscopic ultrasound appearance of 26
X-ray
—, of body packers with ingested cocaine-filled packages 333, 339
Xanthogranulomatous cholecystitis
—, clinical, radiological, and pathological findings in cases with (A) 90
Xanthogranulomatous pyelonephritis
—, simulating malignancy in children 270
